

Meet the Candidates for the Executive Committee

Candidate for President: Warith Oludaisi

My name is Warith Oludaisi and I am currently in the 11th grade and running for SGA Executive President. I am in honors courses and I am taking dual enrollment classes. I play football, soccer, and chess. I usually help out around my community, by mowing the lawn of the senior citizens, organize events for young teens and middle schoolers during spring and also host after-school tutoring virtually. The reason I am running for president is that I want change. Not just for me, but all the students at CMIT. It allows me to manifest my skills of being a leader through communication, motivation, and positive feedback. I promise you that if I get elected, we will see change.

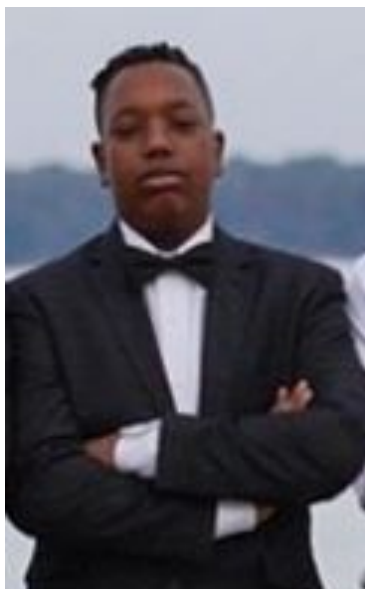

Candidate for Vice President: Jaylah Carter

My name is Jaylah Carter. I am currently a 4.0 9th grade student running for the Vice President role in our school's Executive Board. I would love to think of myself as outgoing and endearing. Helping people and contributing towards a positive community drive me to be a better person. In my free time, I love watching shows on Netflix and Hulu, some of my favorites are One Tree Hill, Criminal Minds, & The 100. Apart from watching many shows on Netflix and Hulu, I like to read crime and mystery books along with trying new baking recipes.

Candidate for Vice President: Joshua McGuire

My name is Joshua-Aaron McGuire. As a teenage student with ADHD I always need to be doing something and always like to be moving around and helping the best I can. For this reason, I am running for the Executive Vice President position and with this position I wish to accommodate and adhere towards students remaining virtual or for all students who have struggles going virtual for school. This is a very broad topic in comparison to the amount of students we have for high school, however as VP, I'm sure that with the cooperation of students and an inside track of issues as a fellow student, I can make a change that will help the future high school years for all students. I am very social and understanding of many student situations so if I am voted Vice President, all voices can be heard for a better school community, virtual or physical.

Candidate for Secretary: Nhandi Nyawela

My name is Nhandi Nyawela. I am running to be your Executive Secretary for the school year of 2021 to 2022. I am currently a Sophomore here at CMIT South. One thing about me is that I am a great observer and take great attention to detail. This can include recognizing the many struggles that I see my peers face. I believe that student council is a way to cater to the students needs and aspirations as a whole. With my skills I can help bring that to the table and make problems and challenges into solutions. The skills that I can provide if I am elected as your Secretary are my organization, getting things done in a timely manner, and voicing concerns to the other Executive Officers. I am a great note taker and can convey things to others easily. As a secretary, my goals would be to allow students to relay their problems given the circumstances of this year and the upcoming year to come. With my work ethic and constant drive for success, I believe that I can be your best Secretary. I hope I can count on your vote. Thank you!

Candidate for Treasurer: Danielle Taylor

My name is Danielle Taylor; I would love to be your treasurer for the new year. I am a rising Senior in the Class of 2022 and I have gone to CMIT South since I was in 6th grade. I play a lot of sports and am active in dance. My favorite subject is science; and I enjoy writing. We students deserve to be heard full heartedly for issues/ideas that solely are about us; but sometimes not everybody can be outspoken about what they want. I want to be the person that gets our ideas out there and helps us have a great highschool experience. I believe that we have earned a proper year of school that will allow us to look back and be proud of how the events we had turned out.
