

Empowering girls to build a better future.

Tuition-free STEM program for girls in grades 6 through 8.

Every girl deserves access to a better future. That's why we've launched the Verizon Innovative Learning program for girls—a dynamic, three-week summer program for middle school females, where they'll learn design thinking, 3D printing, augmented reality and social entrepreneurship.

Only 12% of engineers and 22% of computer professionals are women, and we want our girls to have the right tools to pursue all the opportunities available in STEM (Science, Technology, Engineering, and Math) fields.

Join us at no cost:

July 2019		

When:

July 8 - July 26, 2019

9:00 AM - 4:00 PM

Where:

301 Largo Rd. Largo, MD 20774

Center for Advanced Technology

Classes are held Monday through Friday from **9:00 a.m. to 4:00 p.m.** during the summer and one Saturday a month throughout the school year.

- Lunch and transportation will be provided over the summer.
- Participating students will receive a tablet for the duration of the program.
- Our program was developed in partnership with the National Association for Community College Entrepreneurship and Arizona State University and is expected to impact 1,500 girls across sixteen community college campuses.
