## CMIT ACADEMY SIS POINT REWARD SYSTEM

Dear Students and Parents,

CMIT's Reward Point System is a field tested program, which has been used in very successful schools (including Chesapeake Science Point) for several years now. With the implementation of this system, our objective is to motivate students towards a positive direction. The following rewards and consequences will apply.

It is strongly recommended that parents check the CMIT's SIS systems on a daily basis so that the student's behavioral progress can be monitored closely. The points will be calculated for each calendar month; between the first day of any month and the last day of that month. The following summarizes how reward point system rewards and consequences will work.

### REWARDS

Number of Points Received per Month	Reward
Lost less than 11 points	Eligibility for casual days
Lost less than 16 points	Eligibility for school activities including trips, lock-ins, etc
Earning plus (+) points	Monthly social activities (e.g. ice-cream party, roller skating party, etc)
Earning plus (+) points in two consecutive months	Eligibility for "pick a casual day" pass
Earning plus (+) points for three months in a year	College t-shirt gift to be worn on Fridays

### CONSEQUENCES

Number of Points Lost per Month	Consequence
Lost 16 or more points	Conference with student
Lost 25 or more points	Parent contact
Lost 30 or more points	After school detention
Lost 40 or more points	Meeting with parents
Lost 50 or more points	Possible ISS (In School Suspension)
Two consecutive months of after school detention	Possible ISS (In School Suspension)
Two consecutive months of ISS	Possible out of school suspension
Three months of ISS in a year	Possible out of school suspension
