BENEFITS:
IMPROVED COLLEGE SUCCESS
ASSOCIATE DEGREE UPON
HIGH SCHOOL GRADUATION

REQUIRED:
STRONG WORK-ETHIC
INTEREST IN IT

ITEC ENROLLMENT IS NOW IN PROGRESS

APPLICATIONS AVAILABLE IN FRONT OFFICE

Rising 9th grade students* at CMIT are invited to participate in the Information Technology Early College, which is more commonly known as ITEC. ITEC is a four-year dual enrollment program that provides students a strong course of study in information technology and exposure to a range of additional academic and career opportunities. Course work is rigorous and requires a certain amount of sacrifice. However, the rewards for dedicated students are great including weighted GPAs and the awarding of an associate degree upon high school graduation.

This is the only opportunity for enrollment in this unique program, and application deadlines are firm. If interested, please complete and return your application to the front office by February 15th. For more information, contact Ms. Colandrea at tcolandrea@cmitacademy.org or visit the ITEC website at https://sites.google.com /a/cmitacademy.org/itec/
