

2ND NORTH AMERICAN SOCIAL NETWORKS (NASN) CONFERENCE

OF THE INTERNATIONAL NETWORK FOR SOCIAL NETWORK ANALYSIS

NASN2018

<http://insna.org/nasn2018/>

[Kimpton Hotel Palomar Washington DC](#) in Washington DC, 2121 P Street NW, Washington, DC 20037

The conference features a FREE student-focused program where your students can learn about Social Network Analysis - the study of human behavior through patterns of social interactions. It is used in multiple disciplines: social sciences, mathematics, computer science, ethnology, epidemiology, organizational theory, and more!

Why should your students care about Social Network Analysis?

Your students can put their social media and technology skills to work with a future career in social network analysis!

On Thursday, November 29th from 10:40am-12:20pm, students will:

- Attend a poster session in which current STEM Academy students present their work
- Take part in a breakout session where they can chat with current STEM Academy students
- Learn about careers in social network analysis from current professionals
- This program will also include information about the Johns Hopkins Applied Physics Lab's STEM Academy for 8th through 12th graders. (<http://www.jhuapl.edu/STEM/Students/Stem-Academy>)

Contact Dr. Karin Tobin at ktobin2@jhu.edu for more information or to sign up your students

RSVP: November 16, 2019
