Clubs	Welcoming Staff
	Celebration of student accomplishments
Ratios	Clubs
	Ratios

Curriculum
Small school
High Test scores
High classroom management
Google Classroom, unified platform
Group projects (teamwork, shared results)
New Principal

Session 3 (Pros)

Tech opportunities/career
College Prep
Safety
Saturday School

Parent involvement

Smaller class size

Teacher quality

Students care

High Standards

Session 1 (Cons)

Lack of transportation/for parents

Parent academy (IT, cyber security)

Service hours to be listed on website

Reciprical learning - students to visit other schools

Need more sports

Improve taking suggestions/feedback from parents, not only student level but systemic

Schedule for 9th grade - looks like other schools, or less time dedicated for math

Teacher turnover rate too high

Improve science and math curriculum

Better consistancy of teachers' expectations

ITEC and Non ITEC curriculum - STEM school should focus on computer science, programming, project management, business analyst, IT skill

More field trips

More opportunities in dual enrollment/alternate to ITEC?

Need to fully support ITEC (after thought?)

Need to fully support Science Olympiad

Course selection should be broader

Newsletter to be updated

Increase school communication

Need copies and need to know when the standardized tests

Need to retain students (leaving for Roosevelt)

Session 2 (Cons)

Communication regarding expectations for students - no parent communication regarding building projects

Staff not responsible or accountable

Students need to be more respectful at assemblies (side conversations)

Poor structure/organization of clubs/athletics (i.e. cancellations)

Uniform expenses (more vendors for competition?)

Lack of transparency regarding events and resolutions

Dismissal chaos

Not so good lunch

Not enough resources (i.e paper, toilet paper, internet)

Information overload (i.e too many in a day, last minute requests) info on website or newsletter

Parent participation in ceremonies via streaming

Transportation (lack)

Reciprocal learning

Need more sports

Increase taking parent feedback

Teacher turnover rate

Lower math class hours than neighborhood school (verify)

Communication: student/parent handbook. Signed contract

School wide expectations

ITEC needs more support/promotion

Options (LTE) for non ITEC students More field trips More Science Olympiad support Group projects should be in classrooms/online Home Visit - send out more information about why?? SYEP (Summer Youth Employment Program) info shared via PTO Teachers not engaging students Language barriers - awareness and tools for teachers Too much freedom with cell phones and earbuds More art options More communication regarding schedule, grades, etc Poor classroom management Session 3 (Cons) Lack of academic results Unqualified/experienced staff Effectiveness of staff **Limited Sports** Art after school no present Unstructured after school tutoring (teacher?) Writing weak (workshops?) Limited electives SPED training (IEP/504) Closer supervision of IEP/504 Parent can't choose classes Too much homework Transportation Safety at drop off/dismissal
