

What is the Enrichment Program?

Critical to child development, taking time daily outside of the classroom to engage in activities such as sports & recreation, supervised study sessions, mentoring, and volunteering can positively impact your child's future! Now serving CLF students in grades K-12, our CLF Enrichment program offers students structured time before/after school hours so working families can have more scheduling & transportation flexibility while providing a safe, productive, multi-activity environment while parents/guardians are at work.

CLF Mission

In partnership with students, parents and the community, CLF schools attain educational excellence by providing a rigorous and technology-integrated education for K-12 students with an emphasis on mathematics, science, and information technologies.

This mission is accomplished by implementing an innovative curriculum that incorporates technology into instruction while covering Common Core Standards and utilizing hands-on, inquiry-based teaching methods that create an active learning environment and a student-centered educational system.
