Miki Monroe, Assistant Principal

August 31, 2020

CMIT North Elementary Parents/Guardians,

As part of the Distance Learning plan, CMIT North Elementary will be using Video Conferencing tools, such as Google Meet and Zoom. Teachers will use these tools to provide virtual lessons to students. Recordings of these lessons will not include student faces or voices. Teachers may also ask students to use engagement tools, such as Screencastify, Flipgrid, Edpuzzle, or Kami for.

If you do not want your student to use video and or audio during live lessons, complete the Video Conferencing section of the opt-out form, using this link: [PGCPS Parent Opt-Out GoogleForm](#).

If you do not want your student to use any of the engagement tools, complete the Supplementary Digital Tools section of the opt-out form, linked below.

If your student has permission to use the video and audio features during live lessons and to use all of the supplementary digital tools, NO ACTION is needed.

If we do not receive a response by Friday, September 4, 2020 we will assume you consent to your student using these tools.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dr. Fryson", followed by a large, horizontal, oval-shaped scribble.

Dr. Tenika Fryson
Principal
CMIT North Elementary
