Family Portal for Parents & Guardians

SchoolMAX Student Information System

Introduction

SchoolMAX is an electronic student information system used by Prince George's County Public schools to record attendance, grades, assignments, report cards, discipline incidents, and other information about your child. The Family Portal is an application that allows parents to view this student information as it is added in real time. For example, when a student attendance is marked for that day, the parent or guardian can immediately login and see it.

Starting with the 2013-2014 School Year, Prince George's County Public Schools is instituting a new way for parents to register for the Family Portal that gives more autonomy to the parent, allowing them to reset their own password through an email account. If you do not have an email account, you will need to create one. A free email account can be created at gmail.com or yahoo.com. In addition to using this email to log in to Family Portal, PGCPS may use it to contact you about important announcements such as school closures.

> **NOTE: You cannot use a PGCPS employee email address as your parent user name.**

Registering For Family Portal

Before you begin
Before you can login to the Family Portal, you must register. Before you can register, you will need the following:
- An email address where you can check messages
- Your student's full legal name and nine digit student ID number, which can be found on the student report card or student ID card.
- Your student's birthdate.
- The full address for the student's primary residence. If the student has more than one household, as in the case of divorce, the system only allows one house to be designated

as the "primary", even if the student spends equal times at both houses. If you are unsure which address is the primary, contact the school registrar.
